Tracking Tools, Advertising, and Opt-Out

As mentioned above, the Services use cookies and similar technologies such as pixel tags, web beacons, clear GIFs and JavaScript (collectively, “Cookies”) to enable our servers to recognize your web browser, tell us how and when you visit and use our Services, analyze trends, learn about our user base and operate and improve our Services. Cookies are small pieces of data— usually text files – placed on your computer, tablet, phone or similar device when you use that device to access our Services. You can decide whether or not to accept Cookies through your internet browser’s settings. Most browsers have an option for turning off the Cookie feature, which will prevent your browser from accepting new Cookies, as well as (depending on the sophistication of your browser software) allow you to decide on acceptance of each new Cookie in a variety of ways. You can also delete all Cookies that are already on your device. If you do this, however, you may have to manually adjust some preferences every time you visit our website and some of the Services and functionalities may not work. To explore what Cookie settings are available to you, or to modify your preferences with respect to Cookies, you can access your Cookie management settings by clicking the Cookiebot widget in the bottom left corner of our website. To find out more information about Cookies generally, including information about how to manage and delete Cookies, please visit <http://www.allaboutcookies.org/> or <https://ico.org.uk/for-the-public/online/cookies/> if you are located in the European Union (“EU”).

We may also supplement the information we collect from you with information received from third parties, including third parties that have placed their own Cookies on your device(s). More information on the Cookies we collect and ways to opt-out can be found in our Cookie Policy at <https://www.split.io/legal/cookie-policy>. Please note that “Your browser may offer you a “Do Not Track” option, which allows you to signal to operators of websites and web applications and services that you do not wish such operators to track certain of your online activities over time and across different websites. Our Services do not support Do Not Track requests at this time. To find out more about “Do Not Track,” you can visit www.allaboutdnt.com. “

Information about Interest-Based Advertisements:

You may see advertisements for our Services on third party websites. These advertisements may be targeted to users who fit certain general profile categories or display certain preferences or behaviors (“Interest-Based Ads”). Information for Interest-Based Ads (including personal data) may be provided to us or third-parties by you, or derived from the usage patterns of particular users on the Services and/or services of third parties. Such information may be gathered through tracking users’ activities across time and unaffiliated properties, including when you leave the Services. To accomplish this, we or our service providers may deliver Cookies, including a file (known as a “web beacon”) from an ad network to you through the Services. Web beacons allow ad networks to provide anonymized, aggregated auditing, research and reporting for us and for advertisers. Web beacons also enable ad networks to serve targeted advertisements to you when you visit other websites. Web beacons allow ad networks to view, edit or set their own Cookies on your browser, just as if you had requested a web page from their site.

Data Security

We seek to protect your personal data from unauthorized access, use and disclosure using appropriate physical, technical, organizational and administrative security measures based on the type of personal data and how we are processing that data. You should also help protect your data by appropriately selecting and protecting your password and/or other sign-on mechanism; limiting access to your computer or device and browser; and signing

off after you have finished accessing your account. Although we work to protect the security of your account and other data that we hold in our records, please be aware that no method of transmitting data over the internet or storing data is completely secure. More details about Split's Security program can be found [here](#). If you have reason to believe that your data or someone else's data is no longer secure, please contact security@split.io.

In the event of a security breach, we will take necessary measures to ensure the continued safety of data and contact affected parties and relevant regulators within a reasonable amount of time about the scope and scale of the unauthorized disclosure, as required by applicable laws.

Data Retention

We retain personal information we collect from you where we have an ongoing legitimate business need to do so (for example, to provide you with a service you have requested or to perform our business or commercial purposes for collecting your Personal Data or to comply with applicable legal, tax or accounting requirements). When establishing a retention period for specific categories of data, we consider who we collected the data from, our need for the Personal Data, why we collected the Personal Data, and the sensitivity of the Personal Data.

When we have no ongoing legitimate business need to process your personal information, we will either delete or anonymise it or, if this is not possible (for example, because your personal information has been stored in backup archives), then we will securely store your personal information and isolate it from any further processing until deletion is possible.

For example, we retain your device IP data for as long as we need it to ensure that our systems are working appropriately, effectively and efficiently.
